ARMA Releases 2024 Q2 Report on Asphalt Roofing Product Shipments

Forest Hill, MD (July 17, 2024) – The Asphalt Roofing Manufacturers Association (ARMA) has released its Quarterly Product Shipment Report for the second quarter of 2024. The report covers asphalt roofing product shipments in the United States and Canada in the second quarter, as well as year-to-date shipment information and a comparison with the prior year’s data.

“We’re aware that asphalt roofing data is relevant to several industries; that is why ARMA has decided to make this information accessible to the public,” said ARMA’s Executive Vice President Reed Hitchcock. “We see this report and future reports as a way of providing meaningful industry shipment information.”

Roofing product shipment data is collected from participating manufacturers by an independent third party, Association Research Inc., and aggregated to create this report. Companies that are not members of ARMA may examine the free quarterly summaries, and those ineligible for ARMA membership can subscribe to the full, detailed report on the [ARMA website](#).
